

Sprint 2 Report - CMPS 115

Make College Simple - Team College Finance app

4th of November 2016

Actions to stop doing:

- Talking over each other in meetings
- Stop falling asleep in meetings
- Stop pushing directly to master
 - Use pull requests

Actions to start doing:

- Use engineering practices with scrum
- Be more mindful of ATD items and avoid them
- Develop more consistent coding patterns as a group

Actions to keep doing:

- Going to meetings attendance has been excellent
 - Calling out of meetings early giving plenty of notice
- Being honest about what we have done
Even if it isn't anything more than learning the basics
- Continue playing with the app and experimenting with new concepts
 - This had lead to several improvements
- Working well as a team
- Update the scrum board consistently

Work completed:

- As a student developer, I want to create a basic welcome screen so that users can understand what our project is about.
- As a developer, I want to create a basic layout for the main menu so that we can have a template to work on.
- As a developer, I want to create basic "starting settings" so that first-time users can configure their settings with ease.

- As an android developer, I want to create basic login and register activities so that we can see the general look of the application.
- As a developer, I want to create a basic tutorial so that users can understand how to use the application.

Work Not Completed:

- As a student, I want to see if I have enough financial aid so that I can go to college.

Work completion rate:

- Total User Stories completed: 5
- Total User Stories not completed: 1
- Total number of estimated ideal work hours completed: 24
- Total number of days: 7
- User Stories/Day: $\frac{5}{7}$ or .71 per day
- Hours/Day: $\frac{24}{7}$ or 3.43 per day
